SPEAKER QUOTE: "Many thanks for the opportunity to speak with a lively audience on the topic of Women on the Move. It was great to be able to share what I've learned through the work I do at The Women's Foundation in regard to male-dominated industries in Hong Kong. Considering that women make up just 22% of roles within L&T and only 9% of senior management roles of Hong Kong listed L&T companies, we need to work together to build up the female talent pipeline and support women in busting that glass ceiling".
