

Thank You to all our SCLP Event Sponsors

“Mark, may I express my appreciation for the logistics networking event that you organised- and for the opportunity for Kerry Logistics to sponsor it. It was a well-run event that provided a valuable platform for networking with other professionals in the industry - the atmosphere was conducive to building relationships with fellow attendees. I was impressed with the variety of attendees, from different sectors of the logistics industry, which provided a great opportunity to connect with new contacts and learn from their experiences.

From a sponsorship perspective, I appreciated the visibility and exposure that my company received through the event's marketing materials and signage. I believe it was a good investment and helped to increase awareness of our services within the logistics community. Overall, you did an excellent job in organising the event and I would be happy to support future events that you organise.

Thank you again for your hard work and dedication to the logistics industry.”

With a blend of cargo owners and industry leaders it is a great event to be able to mix in a non-competitive atmosphere. To retain friendships and relations with those individuals, who like ourselves, are striving for excellence in the market and drive and development of our sector in the HK and South China economies. We applaud the efforts of Mark in achieving this.”

SPEAKER QUOTE: "Work Life balance" - or Work Life "Ownership", if you will - is such an important part of our emotional and psychological makeup, I believe that it should be much higher on peoples' agenda than it currently is, particularly given the hot topic of regulating work hours in Hong Kong. The business case has been well established, but it takes a concerted and sincere effort on the part of leadership teams to design and implement workable solutions. I was honoured to be given the opportunity at the SCLP Networking Mixer to share Wallem's efforts in this area, and I hope that it was useful for those present. I'm also grateful for the opportunity to meet other professionals in the industry and had some very interesting discussions about what was being done to drive employee engagement. Thank you SCLP."
